Scheuring Road interchange closure postponed until 10 a.m. Feb. 22

Winter weather delays demolition of bridge over US 41 in De Pere

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing the Scheuring Road bridge carrying traffic over US 41 in Brown County will now close at 10 a.m. on Tuesday, Feb. 22 for demolition. Ramps carrying traffic to and from US 41 at Scheuring Road will also close. The closure is being delayed because of the heavy snowfall over the weekend.

Scheuring Road overpass demolition details include:

- Close Scheuring Road on Feb. 22 at 10 a.m. to all traffic between Mid Valley Drive (north) and Lawrence Drive
- Remove the Scheuring Road bridge over the course of four nights beginning Feb. 22, between the hours of 9 p.m. to 5 a.m.
- Full-lane closures on US 41 northbound and southbound lanes while bridge is obliterated. During demolition US 41 northbound and southbound traffic will be detoured up the exit ramps of the Scheuring Road interchange, across Scheuring Road and back on US 41 using the entrance ramps.

Please note: All scheduled closures are weather dependent and subject to change.

Scheuring Road interchange construction will continue through mid-September 2011. The ramps are expected to reopen to traffic in mid-July, but the overpass will remain closed. During the project, motorists are encouraged to use the County S (Freedom Road) or County G (Main Street) interchanges to cross US 41.
